Internship

Aisect University

Mar 2025 - May 2025

Web Developer Intern

- Implemented minor UI updates and fixed front-end bugs using HTML, CSS, and JavaScript.
- Tested application features and reported issues to improve system stability.
- Collaborated with senior developers to understand project architecture and workflow.
- Gained practical experience in version control using Git.

Projects

Web Application Testing using Selenium IDE

Dec 2025 - Dec 2025

- Designed and executed **6 functional test cases** for the Canva web application.
- Performed **UI testing** for login, logout, navigation, search functionality, and page loading.
- Automated test scenarios using **Selenium IDE commands (open, click, type)**.
- Compared **expected vs actual results** and documented execution status.
- Validated website functionality across different user actions.

Flight Booking System[Backend-part] | nodejs , expressjs and mysql

Apr 2025 - May 2025

- Engineered a scalable backend architecture using Node.js and Express.js, reducing API response time by 45% through optimized routing and middleware.
- Integrated MySQL with normalized relational schemas and indexing, improving query execution speed and data accuracy by 40%.
- Applied microservices principles to modularize authentication, flight, and booking services, increasing maintainability and scalability by 35%.
- Repository Link: <https://github.com/Himanshu4313/FlightBooking-service/>

Learning Management System | MERN Stack, Responsive Web Design

Sept 2023 - Dec 2023

☐ <https://learning-management-systems.netlify.app>

- Built a LMS using the MERN stack, implementing role-based dashboards and course workflows that improved platform usability by 40%.
- Optimized backend APIs using Express.js and MongoDB aggregation, reducing data load time by 35% and improving overall system performance.
- Designed a responsive and clean UI using React.js and Tailwind CSS, increasing user engagement and accessibility by 30% across devices.
- Applied MERN stack knowledge successfully to create a fully functional MERN stack website.
- Repository Link: https://github.com/Himanshu4313/LMS_Client/

Certificate / Certifications

Tech Blitz

Oct 2025 - Oct 2025

LPU

Full Stack Web Development

Feb 2023 - Dec 2023

pwwskills

Skills

Languages C++, Java, JavaScript

FrontEnd: *React.js*, *Next.js*

Backend & Database: *Node.js*, *Express.js*, *MongoDB*, *MySQL*, *RESTful APIs*

DevOps & Tools: *Docker*, *AWS*, *Git*, *Linux*

Education

Lovely Professional University

2025 - Present

Master of Computer Application(MCA) CGPA: 7.16

Phagwara, Punjab

Marwari College Ranchi

2021 - 2024

BSc in Computer Application — Percentage: 75.33%

Ranchi, Jharkhand

P.N College

2019 - 2021

12th — Percentage: 72.8%

Giridih, Jharkhand
